3 CEU Preview Offer: Free

(Regularly \$79) Registration includes breakfast

Scott Sauer, DDS

Don't miss your opportunity to hear how to achieve the best results in restoring implants to enhance your patient outcomes and deliver highly esthetic restorations.

LEARNING OBJECTIVES

- List the important measurements necessary for a functional and esthetic implant restoration.
- Discuss the effect each of these measurements has on the resulting restoration.
- Accurately communicate necessary implant platform position with the surgeon.
- Highlight the value proposition of group practice and how the environment lends itself to successful implant restorations.
