

Women Who Code Career Mentorship: A Virtual Learning Experience.

Virtual Learning Experience

The Women Who Code Career Mentorship Program is a virtual learning experience designed to help women advance their careers in technology. The program is open to women who are currently employed in a technology role or who are looking to transition into the field. The program is structured as a series of virtual sessions, including a kickoff session, a series of expert panels, and a final wrap-up session. The program is designed to be flexible and accessible to women around the world.

Why You Should Join

- Connect with industry leaders and experts in your field.
- Gain valuable insights and advice from experienced professionals.
- Receive personalized feedback and support from your mentor.
- Expand your professional network and build meaningful relationships.
